

# Industry Guideline for pre-flight videos for offshore personnel flying helicopter on the Danish continental shelf

Valid from 17.01.2019

**DANSK**  
**OFFSHORE**

## Contents:

1. Introduction
2. Requirements for pre-flight videos
3. Frequency of watching pre-flight videos

### 1. Introduction

This guideline describes the requirements for pre-flight video for offshore personnel flying helicopter on the Danish continental shelf.

### 2. Requirements for pre-flight briefings

The pre-flight video shall include safety information as described in EASA regulation SPA.HOFO.110 about potential hazards during the flight and how to behave in case of an emergency situation. This shall include the use of personal safety equipment available on the specific flight.

### 3. Frequency of watching pre-flight videos

The pre-flight briefing shall be:

- shown at each departure from onshore Airport
- shown prior to flying from offshore installation to onshore airport
- shown prior to flying to satellites (shuttle) or at least within the last 24 hours.
- available on unmanned installations. This could be on an iPad or similar.
