

DANSK OFFSHORE

The energy transition onshore starts offshore

As a member of Dansk Offshore you get:

DANSK OFFSHORE

Events and network:

As a member of Dansk Offshore, there is plenty of opportunities to create and maintain networks in the industry. Every year we have many events focusing on networking and the creation and sharing of knowledge across the industry.

Events, meetings, and opportunities for gaining influence on the industry and Dansk Offshore:

- Dansk Offshore Safety Conference
- Dansk Offshore Annual Summit
- Webinars
- Breakfast Briefings
- Lessons Learned
- Committees
- General assembly

Climate and sustainability:

The world is facing a huge climate challenge and action is needed now. The Danish offshore industry can make a real difference for both Denmark as well as other countries.

Strong, sustainable, and well-integrated cooperation between all links in the value chain is a precondition for maintaining the activities in the North Sea, be it oil and gas production, CCS, or other new energy and climate technologies.

At Dansk Offshore, we strengthen the valuable cooperation by continuously briefing our members on the latest political and technological developments.

Member benefits:

Dansk Offshore brings the industry together, creates common guidelines, and political influence for the benefit of the industry.

Besides these advantages, members of Dansk Offshore have the following benefits:

Access to:

- Industry magazines
- Newsletters
- Networking Events
- Annual publications
- Press releases
- Law and media surveillance
- Member discounts
- Influence on hearings
- Lessons Learned Database
- Influence on the agenda of the organization
